BROWN WANTS CRIME & CANCER . . .

IN THE VALLEY OF THE MOON

Well, Well, Well, It looks like our Governor "Pat" Brown wants more crime and cancer in the state of California. . .

By wanting more crime, we mean "Bootlegging of Cigarettes" from the state of Oregon, which has no tobacco tax. . .

It is interesting to learn that during the past year some 2 million dollars was made in bootlegged cigarettes in the United States between states with and without tobacco taxes. . .

It is also reported that in 1930 some 2,500 people died in the United States with Lung Cancer and about 35,000 died in 1958. . . During this same period cigarette sales rose in almost the same proportion. . .

But have you ever heard of anyone with lung cancer due to smoking cigars??? NO!!! Because good cigars are made of 100% tobacco and not a lot of paper and other chemicals which are the cause of lung cancer. . .

Now our Governor wants to place 15% more tax on cigars, which will cause the price to become out of reach of many and they will be forced to smoke cheaper products and end up with lung cancer. . .

Thank you,
The Publisher
